Supporting Collaborations:

- Early Years Collaborative (2012)

Consultation on the Pregnancy and Parenthood in Young People Strategy

**Scotland's Strategy to increase choices and
support potential in young people**

July 2015

Ongoing Research

HBSC

- Currently piloting new items on gender and gender attitudes (including sexual health)

GEAS (Global Early Adolescent Study)

- Currently piloting a new study on sexual health
- Tracking young people over time from early-late adolescence and seeing how this links to sexual health

Conclusions

- Decrease in sexual intercourse experience for 15-year old girls
- Experience in sexual intercourse higher in deprived communities
 - health inequalities
- Increase in young people using *neither* condom/pill at last sex
- Gender differences in experience of sexual intercourse
- Policy implications
